Fredie Mulroney of Front street is very ill

with the fever. Mrs. Anna Peage, widow of the late R. C.

Poage, died Saturday at Ashland, aged 85. Mr. A. M. Danbery had an outing party on the steamer Newt Cooper yesterday. They

went as far down as Ripley. Mrs. A. M. Bridges of West Second has been suffering for some days from an ulceration on

the foot, but it is now improving. About fifty Shriners passed here yesterday on No. 2 en route to Atlantic City to attend the

annual conclave, which meets there this week. The Ashland Independent has so far recovered

from its recent disaster—the destruction of its plant by fire-that it is "at home" again. There are no flies on Freil & Forgey.

Ashland furnished one victim of the toy pistol -Clyde, nine-year-old son of Mrs. Nicholas F. Faulkner, who shot himself in the hand July 4th and died Saturday morning.

The work of putting down the pavement between Cherry alley and Limestone is progressing nicely under the directions of Commissioner Smith. This is a needed improvement long delayed.

MURPHY, the Jeweler. While passing along the running-board of his car Saturday night Mr. Charles Smith, the streetcar motorman, reached for a seat-handle that wasn't there-it had been broken off. This cost him an ugly fall, from which he is nursing a painful bruise on the head.

Acting Governor Thorne has granted a pardon to Johnson Hatfield, one of the survivors of the famous Hatfield-McCoy feud who is now pleted its labors at St. Louis early Sunday mornserving a life sentence in the Penitentiary. The reasons given for the pardon are that Hatfield is in failing health and that he promises to leave the state.

The Sixth Ward sewer will most likely be located on the North side of the C. and O. Railway. Thus it will be more easily reached by those who want to tap it; besides if located on the South side of the railway in the Sixth I regard the gold standard as firmly and irre-Ward, it would have to pass under the roadbed vocably established and shall act accordingly at some point between there and its terminus if the action of the Convention today shall be at Bank street.

### "There Isn't One Really Good Printer in Five Hundred."

Printers' Ink—the leading journal on publicity of all kinds—has the following to say: "There are thousands of printers in this country, good, indifferent, and a lot of bad ones. There isn't one really good printer in five hundred. Intelligent advertisers are willing to pay for good printing, no matter where it comes from."

Printing, no matter where it comes from."

Printers' Iuk knows what it is talking about. Poor printing is a bad investment—it's worse than a blank. A business man's stationery or booklet is like a traveling man—if it's neat, well-dressed and to the point, the first impression is good and your chances of doing business on the strength of it are good.

We realize this. We keep abreast of the times. We know what good printing is and produce it. We are pretty careful not to let a bum job get onto our presses. No press in the country can better our printing and we want you to know it.

Walter Graham, a sixteen-year-old colored creek yesterday morning.

He with several other boys were in swimming, and Graham attempted to swim across to

When about half way across he gave out, and turning, started back.

He was too weak, however, and began crying for assistance.

Two of his companions attempted to help him, and he came very near drowning them.

His body was recovered shortly afterwards and removed to his home.

The place where Graham was drowned is one of the most dangerous along the river, and should be avoided as a swimming pool for boys, as it is almost impossible for any one to get at them in case they give out.

After Judge Parker had been advised of his nomination for President, he sent this telegram

"W. F. Sheehan, Hotel Jefferson, St. Louis: ratified by the people. As the platform is silent on the subject, my views should be made known to convention, and if it is proved to be decline the nomination for me at once, so that another may be nominated before adjournment. "ALTON B. PARKER."

As might have been expected, this created all sorts of a flurry; but after several hours of oratory the Convention authorized this reply to Judge Parker's declaration-

"The platform adopted by this Convention is silent on the question of monetary standard because it is not regarded by us as a possible issue in this campaign and only campaign issues were mentioned in the platform. Therefore,

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The design for the proposed Government Building was mistaken by one citizen as a design for a Morgue.

Ir may have been noticed that the Supervising Architect has of late been advertising for bids to erect a Government Morgue in the suburbs of this city.

If the Courts keep on "ruling," it won't be long until a man will be robbed of every liberty. According to a Magistrate at Muncie, Ind., a bride of a few weeks has an inalienable right to hit her husband in the face with a ham mer if he be caught kissing another young woman. Mrs. WILLIAM BIBBS, married six weeks, claims she saw her husband in the act of kissing a young woman, and the bride straightway knocked him down with a hammer. The Court refused to fine her.

Wandering like a bunch of lost sheep, a delegation of six from the Philippine Islands sought seats in the Democratic Convention at St. Louis. They were sufferers, as were all others in attendance, from the abominable arrangements made at the Convention. No one had remembered to assign them seats, although it had been decided to give them the right to participate, but not to vote. The six delegates traveled thousands of miles, spent hundreds of dollars and will have wasted sixty days' time and all for naught; and yet the Democrats profess to be the only and onliest friends of the Filipinos.

THE American people—and this includes the great mass of Democrats as well as all Republicans—are not given to crawfishing. When the Flag has been put, they want it to stay put. Hence they will hardly vote for your Uncle GROVER, who pulled down Old Glory in Hawaii Prevention son. No more "Paramount Commissioners' for Uncle Sam.

"There will never be another silver dollar coined in this country," said George T. Rob-ERTS, Director of the United States Mint, in an interview at Portland, Oregon. Mr. Rob-ERTS is en route to Alaska. "No, there will be no more new silver dollars turned out by the Government Mints," he continued, "unless by some change—a 16 to 1 Congress should be elected—for the supply of silver bullion purchased under the Sherman Act is exhausted.' This will be good news to everyone who doesn't want to carry the cumbersome stuff about in his clothes; but Mister Bryan is expected to put up a "holler" big enough to sink Russia's Vladivostock fleet.

From the evidence before the Coroner's Jury at Louisville, it appears that R. LEE SUTER. member of the Board of Public Safety, was killed by a bullet fired by WILLIAM O. VAUGHN, a sixteen-year-old boy who, with two men and two women, rode out to a fishing camp. Vaughn, it appears, fired his pistol to awaken the camp and struck Suter, who was asleep in a tent. As it appears, further, that the socalled fishing camp was inhabited chiefly by public officials of Louisville who, with their respective "women," were there for a "good time" generally and gambling in particular,that the "bait" was whisky and the "catch" suckers,—the inquiry into Suter's death will not be pushed. However, Colonel Vaughn, son of his father who has become rich on public contracts in Louisville, should adopt milder methods the next time he wants to arouse the sleepers in camp.

health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Boschee's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house-for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough-racked consumptive. New trial bottles, 25¢; large size, 75¢. For sale by Henry W. Ray, Postoffice Druggist.
